## PROFILE

Biomedical Engineering graduate with strong skills in HTML, CSS, JavaScript, Python, and SQL. Passionate about software and web development, with a focus on creating user-friendly and technology-driven solutions. Eager to contribute to innovative digital projects and continuously grow in a dynamic, collaborative environment

## EDUCATION

### BTech Biomedical Engineering

2021-2025

Sathyabama University - Chennai

CGPA - 8.49 \*

## PROJECTS

### Pet Health Care Device And Web App

Developed an IoT-based Pet Health Care Device and Web App with real-time sensor data monitoring, health tracking, alerts, and data visualization.

### AI Powered Chatbox Web App

Developed an AI-powered chatbot web app using HTML, CSS, and JavaScript with Gemini AI API integration, featuring real-time responses

### Weather Web App

Created a responsive weather web app using HTML, CSS, and JavaScript, integrating WeatherAPI.com for real-time weather updates with a clean and user-friendly interface.

### Agrica - Landing Page

Designed and developed a landing page for Agrica, a natural skincare venture, using HTML5 and CSS3. Deployed via Netlify, the project focused on clean design and brand alignment, enhancing my frontend development skills.
